

The day I got tested for coronavirus

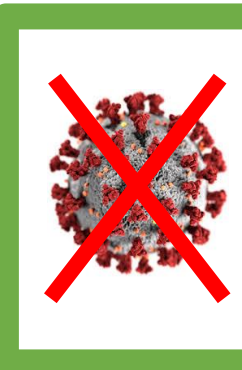

by Jenny, aged 6

Daddy stuck a stick in my mouth and throat and then **up my nose**. I didn't mind it in my mouth but I did not like it going up my nose.

Mummy helped – she made me **balloon hands**, from blue gloves. I gave them high fives – like 5 in Number Blocks.

Daddy stuck a stick in his mouth and nose too. He did very well. Mummy did it too but she was not brave. I was brave.

We were in the car. We drove and saw people from the army. They were nice. Then we sat in the car and used the sticks. It was very **quick**. It was very **easy**. It was alright.
